About us

Your source for automotive fastening and sealing parts

RGC Polymers makes and supplies clips, plugs, grommets, rivets, spacers and caps for purchase teams in India and overseas. We manufacture part of our range ourselves and source the rest through our extended network of injection moulding partners, so you deal with one supplier from quote to delivery.

How to order

1. **Send a part number or drawing.** Choose from this catalogue, or send your drawing (PDF, DWG or STEP).
2. **Get a quote.** Price, minimum order and lead time for your volume, within one working day.
3. **Approve a sample.** Check it against your drawing and on your line.
4. **Place a trial order.** Start small, then increase volume once approved.

Product families

Lead time	On request

Made to drawing

Custom parts from your drawing

Not in this catalogue? Send your drawing with material grade, colour, rough annual volume and delivery location. We confirm feasibility and quote price, minimum order, lead time and any tooling, then send samples for your approval before production.

Export

Buying from outside India?

- Quotes in INR, EUR or USD
- Delivery terms per order: EXW, FOB or CIF
- Drawings in millimetres or inches
- Written replies in English within one working day, India time

Materials

Material	Properties	Typical parts
PA66 (nylon 6.6)	Strong, stiff and heat resistant	Harness clips, tie bases, push rivets, retainers, spacers
PP (polypropylene)	Light, tough, resists many chemicals	Blind-hole and aperture plugs, protective caps
PE (polyethylene)	Flexible, easy to fit and remove	Dust caps and port covers
TPU	Tough, flexible, resists wear and oil	Connector caps, protective parts
TPE	Soft and rubber-like, seals and damps vibration	Grommets, seals and NVH parts

Other grades, colours and fillers on request.
