Who we are

A supplier built around how plants buy

RGC Polymers is based in Kharadi, Pune, within easy reach of the Chakan, Talegaon and Ranjangaon automotive clusters. We make and supply the small plastic parts every vehicle needs in large numbers: clips, plugs, grommets, rivets, spacers and caps.

Buyers often struggle to get these parts in small lots, with samples first and clear answers. That is what we focus on: a sample first, then a trial lot, then volume, with one contact throughout.

We manufacture part of our range ourselves and source the rest through our extended network of injection moulding partners.

How we work

Honest specifications

We only publish what we can confirm. Anything else is marked "on request" and confirmed in your quote.

Samples before orders

You approve parts on your own line before you commit to volume.

One contact

The same person handles your quote, samples, quality questions and delivery.

Quick, written replies

We aim to reply within one working day, India time, by email or WhatsApp.

What we supply

Four product families, 60 parts

Harness ties, clips and spacers

Cable ties, fir-tree and screw-mount harness clips, stand-offs and bushes.

Plugs, caps and grommets

Blind-hole and aperture plugs, protective and dust caps, snap-in grommets.

Rivets, clips and washers

Push rivets, trim retainers, plastic washers and underbody supports.

Connector and rubber parts

Terminal and connector protection, rubber and TPE NVH parts.

Launch parts

RGC-07
Fir-tree harness clip

RGC-10
Screw-mounted cable tie base

RGC-15
Snap-in plastic grommet

RGC-19
Round blind-hole plug

RGC-20
Rectangular aperture plug

RGC-23
Connector / port dust cap

See our product catalogue for all ten launch parts and specifications. Images are representative.

Where our parts are used

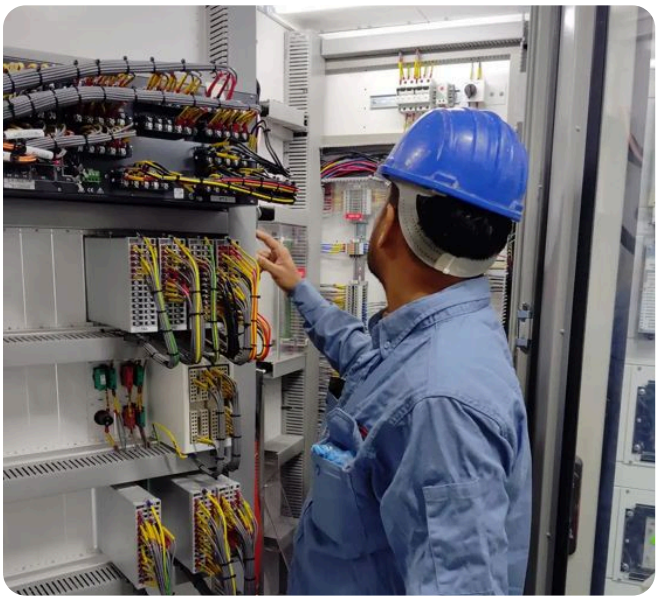

- ✓ Wiring harness: fir-tree clips, tie bases and stand-offs
- ✓ Interior trim: push rivets and trim retainers
- ✓ Body and underbody: blind-hole and aperture plugs, grommets
- ✓ Connectors and ports: dust caps and protective caps

Capabilities

Our own production and trusted partners

- Parts made in-house and by our moulding partners
- Standard parts from our 60-part range
- Custom parts made to your drawing
- Trial quantities and short runs
- Local delivery around Pune, export by sea or air

Quality

Checked against your drawing

- Critical dimensions and tolerances checked on samples
- Material grade stated for every part
- Samples approved on your line before production

Materials

Material	Properties	Typical parts
PA66 (nylon 6.6)	Strong, stiff and heat resistant	Harness clips, tie bases, push rivets, retainers, spacers
PP (polypropylene)	Light, tough, resists many chemicals	Blind-hole and aperture plugs, protective caps
PE (polyethylene)	Flexible, easy to fit and remove	Dust caps and port covers
TPU	Tough, flexible, resists wear and oil	Connector caps, protective parts
TPE	Soft and rubber-like, seals and damps vibration	Grommets, seals and NVH parts

Export

Working with buyers outside India

- Quotes in INR, EUR or USD
- Delivery terms per order: EXW, FOB or CIF
- Drawings in millimetres or inches
- Written replies in English within one working day
